Volume 21 Author and Subject Index

A

Adams, R. J., 1
adaptive testing, 115, 129
aggregation, 271
answer copying, 307
appropriateness measurement, 99, 115, 321

B

Baker, F. B., 89, 157
Bayesian estimation, marginal, 143
Ben-Simon, A., 65, 233
BIGSTEPS, 279
Bilgic, R., 291
BILOG 3, 371
binary logistic models, 371
Bolt, D., 195
Book Reviews, 185, 377
Brandt, C. J., 271
Budescu, D. V., 65, 233

C

characteristic curve method, 157
cheating, 307
Cheng, P. E., 349
classical test theory, 173, 337
coefficient α, 173, 337
Cohen, Y., 233
componential analysis, 37
composite reliability, 173
computer administration, 51
computerized adaptive testing, 115, 129
Computer Program Exchange, 64, 189, 232
confirmatory factor analysis, 337
congeneric tests, 173
copying, 307
correction for attenuation, 253
correlated error, 337
cross-level analysis, 271
cross-validation 291

D

De Boeck, P., 37
detection rate, 215
differential item functioning, 195
dimensionality, 25, 233
discrete latent trait models, 377

E

Edwards, J. E., 291
EM algorithm, 1, 143
Enzmann, D., 232
equal weights, 291
equating, 349
equating coefficients, 157
equipercentile equating, 349
error of measurement, 253
error score, 253
essential τ-equivalence, 337
experimental independence, 337

F

factor analysis, 25
Featherman, C. M., 279
Ferron, J. M., 64
Fleer, P. F., 291
frequency estimation method, 349

G

gapping, 233
graded response, 157
guessing, 65

H

Hambleton, R. K., 185
Heinen, T., 377
hit rate, 215

I

interrater agreement, 271
item analysis, 25
item response theory, 25, 37, 51, 99, 115, 185, 195, 307
  dimensionality, 233
  multidimensional, 1, 25

©1997 Sage Publications, Inc.

parameter estimation, 143
person fit, 321
Ito, K., 51

J
jacknifing, 233
Janssen, R., 37
Johnson, E. G., 349

K
kernel equating, 349
Kim, S-H., 371
Komaroff, E., 337
Kromrey, J. D., 64

L
Landsheer, J. A., 189
latent class models, 377
Li, H.-H., 195
Li, M. F., 215
Lindell, M. K., 271
Liou, M., 349
log-linear models, 349

M
Maasen, G. H., 189
marginal Bayesian estimation, 143
marginal maximum likelihood, 1
Maydeu-Olivares, A., 185
Meijer, R. R., 99, 321
misfit, 215
misinformation, 65
mode of administration effects, 51
multicomponent models, 37
multidimensional IRT models, 1
multidimensional item response theory, 25
multidimensionality, 195
MULTILOG, 89
multinomial logit models, 1
multiple regression, 291
MULTISIB, 195

N
Nandakumar, R., 195
Nering, M. L., 115, 321
Nevo, B., 65
NNCORR, 64
nominal response, 157
nominal response model, 307
non-normal distributions, 253

O
Olejnik, S., 215
ordinary least squares, 291

P
parallel analysis, 233
partial knowledge, 65
person fit, 99, 115, 215, 321
population cross-validity, 291
population validity, 291
prediction, 99

R
Raju, N. S., 291
RanEigen, 232
Rasch model, 1, 25, 215, 279
rating scales, 189
Raykov, R., 173
Reckase, M. D., 25
regression correction, 195
reliability, 253, 337
response
aberrancy, 321
methods, 65
ordering, 129
revising item responses, 129

S
sampling distributions, 157
scale development, 173
score aberrance, 215
scoring methods, 65
self-assessment, 65
SIBTEST, 195
Software Note, 89
Software Review, 279, 371
SSRAT, 189
standard errors, 349

Stocking, M. L., 129
Stout, W., 195
structural equation modeling, 173
Sykes, R. C., 51
synonym tasks, 37

T
test equating, 157
test equivalence, 51
test-taking strategies, 129
three-parameter logistic model, 143
trait level estimation, 321
true score, 253
Type I error, 195

U
unidimensionality, 233
unusual response patterns, 215

V
validity, 99, 253
van der Linden, W. J., 185

W
Wang, W., 1
Williams, R. H., 253
Wilson, M., 1
Wollack, J. A., 307

Y
Yamamoto, K., 377
Yi, Q., 64

Z
Zeng, L., 143
Zimmerman, D. W., 253
